

Wise Petrochemical Solutions and Development (WPSD) was established in Oman in 2022 with the aim of distributing chemicals needed by the oil and gas industry in the Middle East region. The company's goods include Drag reducing Agent, Demulsifier, H₂S Scavenger, Corrosion Inhibitor, Scale Inhibitor & Loss Circulation Material. WPSD managed to be present in the field of equipment required by the oil and gas industry. Its success was demonstrated by obtaining the representative of Well Innovation Norway's sales and service company in the field of oil and gas downhole equipment in the GCC region.

In the field of chemicals, WPSD supplies all its chemical products from the company Wise Petrochemical Solutions (WPS) Oman.

WPS is a producer of chemicals needed by the oil and gas industry, its factory is located in Muscat. Furthermore, owners of WPS in Iran have been manufacturing these high quality materials for the past 10 years under the name of the company BLACK GOLD.

During the past 10 years, BLACK GOLD company has concluded and successfully completed many contracts with the National Iranian Oil Company. In 2022, to present their products to the international market, the owners decided to build a production factory similar to Iran in Muscat. Currently, WPSD is responsible for sales and services of all WPS products outside Oman.
